PROFESSIONAL SUMMARY

Full-Stack Web Developer with 3+ years building scalable, high-performing web applications on the MERN stack for international and domestic clients across fintech, healthcare IT, and government sectors. Skilled in JavaScript (ES6+), TypeScript, React.js, Node.js/NestJS and REST API design, delivering clean, maintainable code from database to responsive UI. Experienced in third-party API and payment-gateway integration, performance and security optimization, and agile delivery within distributed, remote teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Front-End: React.js, Responsive Web Design, Cross-Browser Compatibility, Reusable UI Components
Back-End: Node.js, NestJS, Express.js, REST API Design, JWT Authentication, Third-Party / Payment-Gateway Integration
Databases: MongoDB, MySQL, Schema Design, Query Optimization
Tools & Platforms: Git & GitHub, CI/CD Workflows, AWS (EC2, S3) Cloud Hosting, Postman, Netlify, Heroku
Practices: Website Performance & Security Optimization, API Integration, Agile / Scrum, Code Review, Remote Collaboration

PROFESSIONAL EXPERIENCE

Web Developer | UEXEL Foundation
Islamabad, PK · Jun 2025 – Present

- Design, develop, test, and maintain full-stack features across 4 live SaaS platforms (DTS, PROMIS, IMS, POS) using React.js and NestJS for government and enterprise clients.
- Integrated a third-party payment gateway, reducing manual billing overhead by ~40% and enabling seamless online transactions in production.
- Deployed and hosted applications on AWS achieving 99%+ uptime; collaborated with distributed teams to deliver sprint goals consistently on schedule.

Full-Stack Developer | ValourAI (Remote — International Client)
Remote · Mar 2022 – Jan 2025

- Led end-to-end development of an automated trading platform — from database schema design through backend REST API deployment — for an international fintech client.
- Optimized NestJS/Node.js APIs handling real-time data pipelines, reducing response latency by ~35% via query tuning and caching strategies.
- Worked in an agile, distributed team with international stakeholders: code reviews, async standups, and cross-time-zone delivery planning.

Frontend Developer | Execudea
Rawalpindi, PK · Sep 2021 – Feb 2022

- Built responsive UI components with HTML5, CSS3, and JavaScript, improving mobile experience scores during QA cycles.
- Debugged and resolved cross-browser rendering issues, contributing to a ~25% reduction in the frontend bug backlog over 6 months.

KEY PROJECTS

- **PROMIS —** Healthcare diagnostic platform (React.js + NestJS); full module ownership of clinical data workflows. *promis-test.precipiodx.com*
- **POS —** Multi-tenant point-of-sale system handling real-time transactions, inventory, and invoicing (React.js + NestJS). *app.uxlpos.com*
- **IMS —** AI-integrated enterprise platform (React + NestJS); intelligent data processing reduced manual entry by ~30%. *ims.ussgroup.pk*
- **DTS —** Production government document-tracking system; owned the React.js frontend for a public-sector user base. *dts.gov.pk*

EDUCATION

B.S. Computer Science — SZABIST University, Islamabad · *Sep 2021 – May 2025*
